Subject: RE: California baseline for initial permits and renewals

Good afternoon Mike,

I'm sorry, I attached the wrong list in my morning email. Please discard the first list. This is the correct one. The spreadsheet attached has 2 tabs, one with the Initial List and the other for Renewal.

Good morning Mike Z,

Sorry for the delay. We made some modifications to the report after our meeting yesterday to exclude Units referred to CERCLA or Corrective Action.

Please find the updated list attached.

Hi DTSC,
Were you able to run the report yesterday?
When should I expect to see the revised Excel spreadsheet?
Thanks in advance for all your help.
Best regards,

Mike Zabaneh, P.E.

Subject: RE: California baseline for initial permits and renewals

Good afternoon Mike,

We will be sending you a new lists for the 2018 Baseline by this afternoon. Mike C, Peter and Ed will work with staff in the Permitting Office to conduct an analysis of the new lists from EnviroStor, and the (2018 Calif baseline 10-22-13.xlsx) report. However based on staff time and the turnaround time, DTSC does not believe that we will be able to do a full comparison between the two dataset by the end of the week. So that we can all move forward, DTSC is suggesting that if you do not hear back from the Permitting staff by COB tomorrow, that the lists we submit to you this afternoon be used as DTSC's submission for the final 2018 baseline.

Hi Schumin,
I just sent you all an invitation for a conference call tomorrow at 11 am.
Do we have a conference call in number and a confirmation code that we can use?
Thanks,

Good morning,

I think DTSC should have an internal meeting prior to discussing with USEPA. The vendor and I are currently reviewing the information provided by Mike Z's and conducting a comparison. Perhaps the meeting with DTSC staff can take place on Friday, and we can discuss with USEPA next week?

Dear DTSC GPRA Team,

Please see the following email from my HQs.

I would like to have a call with you in the next couple of days to discuss the comments in the excel file and the notes in the email below.

Please let me know your availability once you had a chance to review it.

Thanks,

Subject: California baseline for initial permits and renewals

Mike

I corrected the information we have for the baseline for California based on the file you sent (identified as the one from DTSC 9-26-13). I also made edits based on our discussion last month.

I could not add some that were, for example not listed in RCRAInfo or had been clean closed before the cycle. I made notes about the units where I was not able to add the facilities or where we retained a few that were not on your list.

Please see the attachment.

I have a few notes where I see that the legal and operating status codes still need to be updated in RCRAInfo.
